The CAREER OF DANIEL FROHMEN

By JAS. S. McQUADE.

THE CAREER OF DANIEL FROHMAN

A MONG the names prominent in the theatre to-day, the names of "Frohman" can be seen on the superscription of almost every theatre in the world. Yet the origin of this name, the descendants of which are entwined with the record of the past, present and future of the world's amusement, may be traced back to a very remote period. Frohman, it is said, was a member of one of the noblest families of the old world. The Frohman family rose from humble beginnings to become one of the most illustrious families of Germany. The Frohman family was established in the early part of the eighteenth century, and was well known for its political and military achievements. The Frohman family played an important role in the history of Europe, and was involved in many significant events. The Frohman family was particularly prominent in the field of theatre, and their contributions to the art form have left a lasting legacy.

NEW YORK, MANAGERS BEGIN WORK FOR FALL

NEW YORK, July 29.—That optimistic feeling for which every one has been searching is noticeable in the offices of the new managers who have taken charge of the booking of the leading women in the show business. With the exception of a few of the larger producers who are planning their own program, most of the managers are working for the interests of the show business and the high-class artists who are associated with it.

Vaudville Bills.

Summers vendues, continue to be as interesting an event as the Sand Creek Massacre. The Vaudville managers have been eying the field carefully, selecting and choosing the best talent to bring before the public. They have been keeping close tabs on the progress of the various shows and have been giving careful attention to the business affairs of the artists they represent.

From present indications New York will have a better summer season this year than ever before. The managers are putting in their best efforts to make the shows worth while and the public is looking forward to a season of great enjoyment.

Richardson Roller Skates

"The Good Kind" used in 80 per cent of the largest and most successful Rinks in America and by all prominent Skaters of the world. We have everything pertaining to the Rink business. Write for catalogue.

Richardson Ball Bearing Skate Co., 3501 Wells Street, Chicago, Ill.

Harley Davidson, the king pin of the 1908 racing division has been giving some queer exhibitions of fancy skating in addition to showing his hands to some of the speed merchants in this section of the country.

Harley has been visiting relatives in New York, and worked at the Palisades field, Kansas City, last week. Harley will take part in the races held recently at Disney Island, owing to the small gate, and some individuals connected with the skating business, arrangements are being made to bring in Major Duke of Hearts, the famous rink dog, together in a quarter-mile match, now, for a purse and side bet to be held on the fast track at Disney Park playground, Kansas City, Mo. Major broke his old record of thirty-two seconds for the quarter-mile last week on this track, going the distance in thirty-two and two-hundred seconds, the fastest record ever made by cutting in the speed line in the world, or an indoor rink where board track of this line is used.

Glennsen & Hennig, managers of the Palisades Park rink, Brooklyn, N. Y., are now and business at both amusement parks, and are distributing in the city of St. Paul their rink for the winter season.

Manager Matt F. Wilson opened his first rink and dance pavilion at Coffee, Minn., last Saturday, and has been flying away with nearly 300 feet long by about 200 feet wide, with a disc skating-floor in the center. Everything is new in first-class, in every respect, with a capable manager at the head, who intends to book light vaudeville during the summer, and skating attractions during the winter season.

Ring managers, who have not sent in their opening date for the coming fall season, should do so at once, so that it can be, as will be the case, will you receive your membership card by return mail. Always remember the HARRY WORLD is first in good, new ideas for the ring manager.

Manager Lou Smith of the Star rink, Portland, Ore., is still playing attractions. Fred T. Bibb has performed there July 1 to 6, and July 26 to 30. For skating elephant, was the attraction July 1 to 6, after playing the 26 at A. J. Fettis’ rink, Wintfield, Kans.

Manager John Gunderud of the Woodland Park rink at Worchester, Mass., is doing a great business considering the many other attractions too numerous to count.

Curl Menzing will open up the largest rink in the West this coming fall season, at Kansas City, Kans., with a floor space of 225 feet square. The opening of this rink, fall, will make Kansas City one of the greatest rink cities in the world for roller skating, as it will make ten large rinks in operation here by next season.

George W. Bush, manager of the Spencer Park summer rink, Loganport, Ind., writes that business has been fairly good considering the warm weather.

J. C. Hagel, manager of the Rockaway rink at Sterling, Ill., has discontinued Chicagoland, has reopened for skating July 11.

Wade & Janus’ new Colosseum rink at Englewood, Ill., has opened for the summer and will re-open in September with several campehan meetings.

The rink pavilion at Kokomo, Ind., is still doing a booming business, although the weather has been as cool and extremely warm for the past few weeks.

Prof. Charles L. Franks and his little daughter, Lillian, have been enjoying a very delightful vacation at their summer home on Lake Michigan, near Chicago, for the past few weeks.

H. B. Cooper, manager of the Elite rink at Rockville, Mo., was a caller at the Kansas City headquarters last week and states that business is fairly good and tends to open a circuit of rinks. Mr. Cooper is a member of the Colosseum Managers’ association, and intends to book in the circuit. The Colosseum New association acts the coming season.

Rink managers, who wish to give a dance at their rink any time, should never use distracting music that might cause them to lose business, but something that sticks to the wheels like chewing gum. If you will use a littlecantidad, add in powder form, it will answer the same purpose, and appears very ordinary. Also, when you have few skaters, who are hard to control, a little borax acid on the floor will show them up at once, without their knowledge.

H. B. Rice, manager of the Pavillion rink at Petite Grove, Cali., writes that he is offering this large rink this fall for the season, owing to the very cool evenings that prevail on the coast.

INVASION BY LONDON PLAYERS TO CONTINUE

Many of the Leading Lights of the British Stage to be Seen Here Next Season.

THE invasion of America by London players promises to continue next season, with the resultant invasion of British art and social activity. The last season saw fewer of the Londoners on the New York stage than during any season in the history of the rush of foreigners for American dollars and American appliance reached its height.

With the exception of Mrs. Patrick Campbell and Miss Nelly Forde, who now really considers herself an American actress—and in this she is followed in her career by the American theatrical comedy, the American stage shows every sign of being a winter visitor in the British capital during the winter. This was not the case last season, when they were fairly overrun by entertainers from across the water.

Announcements made by managers of the leading London companies of the first week of the season. Many of the Leading Lights of the British stage to be seen here next season. WILLIAM GILBERT, editor.

Hicks and Williams, Contessa. Hicks and Miss Forde are artists who have long been established in the British metropolis, where they have made and retained a deservedly high reputation in The Gay Gordons and The Beauty of Life. No theatre company in the West End has a more distinguished line of acting. Miss Forde, in a private letter to the manager, has said: "I am coming to the United States, and I hope to return to the British stage this season." Hicks and Forde have a letter of introduction from Little Charley Tree's company and it is expected they will be seen here in the course of the season.

SHERWOOD B. TRUMAN.

Some of the leading lights of the London stage will be here next season. Among those to be seen are Miss Mrs. Patrick Campbell, Miss Nelly Forde, Miss Mabel Terry-Lewis, and Miss Missie Millet. Miss Campbell and Miss Forde will be seen in the annual British-American season, Miss Mabel Terry-Lewis in The Merry Widow, and Miss Missie Millet in The Mona Lisa. Miss Campbell has a letter of introduction from Little Charley Tree and Miss Forde has a letter of introduction from Miss Mrs. Patrick Campbell.

Mr. J. M. K. Igolm, who has been playing in London and Scotland during the past season, will arrive in New York at the end of this month and will be here for the season. He is a member of the British-American company and will be seen in The Merry Widow.

The London stage will be represented by a number of leading lights next season. Among those to be seen are Miss Mrs. Patrick Campbell, Miss Nelly Forde, Miss Mabel Terry-Lewis, and Miss Missie Millet. Beck and the White Rats. Interchange of Courtships to be seen in "The Little White Rats." THE LONDON stage will be represented by a number of leading lights next season. JOHN M. GREGORY CHATS OF CURRENT SITUATION

With the rounding out of the summer season, while the 'weekend' crowd is winding down, the 'weekday' crowd is growing in. The change is noticeable at all the pictures. There is a joyous air of expectancy among the patrons who are looking forward to the different winter-shows that are promised. 

The picture shows and attractions of the coming season are eagerly awaited by the patrons of the theatre. They are looking forward to seeing the different productions that will come early in the fall, as there is a great deal of interest and excitement, and a spirit of the interest gradually growing stronger. The patrons are beginning to think about the various shows that will be presented in the coming season.

Discusscd Paid in Full.

I wish to say a word about the payment of the theatre bills. I do not know of any method of payment that is more convenient and simple.

Newark Notes.

At the opening of the season there was a great deal of interest in the opening of the new theatre. The first night was a great success, and the patrons were very much pleased with the new venue.

HAGENBECK-WALLACE NOTES.
By Wallace Pepper.

The Hagenbeck-Wallace notes a few of the principal cities of Oklahoma during the fall of 1906 but the Great Hagenbeck show was almost a stranger in that section of the country until the recent invasion of that territory. The Hagenbeck show was in the southwest and the management concluded to make a few Oklahoma stands just to show the people what kind of an enterprise the Hagenbeck and Wallace show is. It was a little early in the season for that section of the country but the crowds drawn at Guthrie, the Capital, and at other places did not turn anyone away. The Capital said it was the best circus that ever drew there.

Charles H. Leiphart has an inn near Guthrie, Oklahoma, and a recent visit from Guthrie furnished the writer a good round-up. The circus drew the largest crowd of the season and surprising prices were received from members of the show company and from people who got to know the Hagenbeck in Chicago, Aug. 1-2, on

video.

MANAGER RICE OPTIMISTIC

Says Situation in Mound City Is Most Promising, Although Quiet Now—Fall Prospect is Good.

H. E. Rice, the well-known St. Louis vaudeville manager, called at the executive offices of The Show World while in Chicago last week, for a few moments over the unanimous optimism for the coming season. The following is a part of his conversation:

"In spite of the fact that we are now disposed of the Globe theater, a vaudeville house which was conducted under his management for five years, the Mound City situation is so extremely satisfactory that while St. Louis is looked at as one of the most solid comedies of the year, the general output seems to have been cut down, and it is very likely that the general slump seems to have been taken in a more noticeable manner, and it will be some time before a resumption of normal prosperity may be anticipated.

"While the parks in St. Louis are doing fairly well this year, the business is not to be compared with that of last summer.

"At present there are no theaters being operated in St. Louis. The Columbian will open with high-class vaudeville on August 16. A few vaudeville houses for this locality, with carefully selected acts, are now near completion, and it is expected that the season will open in a few weeks. A new theater will be built on Frink Avenue, which will be erected for a local company of vaudeville acts, headed by Mr. Fishell, whose picture has just been released in out-of-town plans for the coming season. It is expected that this theater will be just as highly patronized as the last.

"The outlook for general amusement business as a whole is not promising, the fall weather sets in. To struggle, to hold your head up, and to make the best of it, is the only policy.

"The balance of the season is not likely to be as good as expected, but the theater business has always been a topsy turvy business."

Exciting Election for President Held—Engagement Agreements

There was a lively rush to the club rooms of the Pathfinders and Trailers, 134 Michigan Avenue, on July 25, the occasion being the second annual election of officers. A substantial list was over the candidates for president H. F. Redick, for vice president F. W. McLean. After a canvass that was hotter than the Tammany of New York, H. F. Redick won out by a narrow margin.

Louis James as Poor Gynt

Louis James, who was for many years associated with Frederick and the presentation of Shakespearian productions, now on the formation of a company of his own. He has also announced to present a new production of "Peer Gynt" next season and will retain all the features of the Richard Mansfield production and at the same time introduce a new and unusual treatment.
